

Ahmad Fauzzan Maghribi

Cilacap, Indonesia | af.maghribi@gmail.com | [LinkedIn](#) | [GitHub](#) | [Credly](#) | [Portfolio](#)

SUMMARY

Cloud Engineer with over 3 years of expertise in architecting, automating, and optimizing high-performance private and public cloud infrastructures. Specialized in **OpenStack, AWS, and GCP**, with a heavy focus on **Kubernetes** and **Infrastructure as Code** (Terraform, Ansible). Proven ability to lead technical teams, manage complex cloud migrations, and build systems that are secure, scalable, and resilient. Highly certified professional (CKS, CKA, CKAD, Professional Cloud Engineer) with a passion for cybersecurity and technical mentorship.

EXPERIENCE

PT. Boer Technology (Btech)

Aug. 2023 – Present

L2 Cloud Operation Engineer

Remote, Indonesia

- Execute and oversee production-level configuration changes for critical private cloud components, ensuring high availability.
- Provide strategic technical guidance and mentorship to L1 Cloud Engineers, monitoring every action taken within the environment to ensure operational excellence.
- Lead troubleshooting and root cause analysis (RCA) for critical infrastructure issues that cannot be resolved at the L1 level.
- Collaborate across teams to implement configuration changes that impact the global cloud infrastructure.

PT. Boer Technology (Btech)

Jun. 2021 – Aug. 2023

L1 Cloud Operation Engineer

Remote, Indonesia

- Managed private cloud infrastructure using OpenStack and Ceph, and monitoring systems (Prometheus, Grafana, Zabbix, ELK Stack).
- Deployed and maintained production-grade Kubernetes clusters using Juju and MAAS for automated lifecycle management.
- Automated repetitive infrastructure tasks using Ansible, Python, and Bash, significantly reducing manual intervention.
- Mitigated risks within defined SLAs and performed detailed research to optimize cloud resource utilization.

Akademi Digital Nusantara (ADINUSA)

Jul. 2021 – Jan. 2023

Mentor and Instructor (Part-time)

Indonesia

- Instructed CompTIA (Network+, Security+, PenTest+) and Linux Foundation (LFCA, LFCS) courses for professional audiences.

PT. Graha Karya Informasi

Aug. 2019 – Dec. 2019

Network Engineer (Part-time)

Indonesia

- Managed installation, maintenance, and decommissioning of IT network appliances across branch office locations.

INTERNSHIP EXPERIENCE

PT Telkom Indonesia (Persero) Tbk

Aug. 2020 – Sep. 2020

Core Network Operation - Student Internship

Indonesia

- Analyzed backbone enterprise-grade network appliances, topologies, and network monitoring tools.

BLC Telkom - KPLI Klaten

Nov. 2015 – Feb. 2016

Network Engineer - Student Internship

Indonesia

- Trained high school students in networking and cloud computing fundamentals for final practical examinations.
- Installed and dismantled network appliances in branch office environments.

TECHNICAL SKILLS

Cloud Platforms: OpenStack, Amazon Web Services (AWS), Google Cloud Platform (GCP)

Orchestration & DevOps: Kubernetes, Docker, Containerd, Podman, Terraform, Ansible, Juju, MAAS

Storage & Databases: Ceph, PostgreSQL, MongoDB, MySQL, MariaDB

Observability: Grafana, Graylog, Prometheus, VictoriaMetrics, Zabbix, Elasticsearch, ELK Stack

Networking & Security: Tunneling (Vxlan), VLAN, VPN, Bonding, Routing, Switching, Vault, PenTesting

Operating Systems: Linux (Ubuntu, RHEL, CentOS, Debian), Windows Server

Programming & Automation: Python, Bash Scripting, Git, GitLab, GitHub

CERTIFICATIONS

Google Cloud (GCP)

- Professional Cloud Engineer
- Associate Cloud Engineer

Cloud Native (CNCF)

- Certified Kubernetes Security Specialist (CKS)
- Certified Kubernetes Admin (CKA)
- Certified Kubernetes App Developer (CKAD)

Security

- Certificate of Cloud Security Knowledge (CCSK v4)
- CompTIA PenTest+
- Certified Secure Computer User (CSCU)

Alibaba Cloud

- Cloud Professional (ACP)
- Cloud Associate (ACA) Computing/Security

Huawei

- HCIA Cloud Computing
- HCIA Routing & Switching

Others

- AWS Certified Cloud Practitioner
- MikroTik Certified (MTCRE, MTCNA)
- JLPT N5 (Japanese Proficiency)

EDUCATION

Telkom Purwokerto Institute of Technology	Nov. 2017 – Mar. 2021
<i>Bachelor of Telecommunication Engineering (GPA: 3.74/4.00)</i>	<i>Purwokerto, Indonesia</i>
– Graduated with Cum Laude honors; served as Head of Internetworking Subdivision in IPTEK unit. – Active member of SKI (Islamic Student Unit) and NEV (Cloud Computing) research group. – Served as Laboratory Assistant for Advanced Programming, Computer Networking, and Network Security. – Committee member for several local campus events including training, bootcamps, and seminars.	

PROFESSIONAL TRAINING

Google Cloud Get Certified Program	2024 – 2025
<i>Professional & Associate Cloud Engineer</i>	
– Focused on designing and managing robust, secure, and scalable solutions on Google Cloud Platform.	
Cloud Native Developer IT Professional Program	May 2024 – Oct. 2024
<i>DevOps & Kubernetes Specialization</i>	
– Comprehensive program covering Kubernetes, Docker, and DevOps methodologies.	
Digitalent Scholarship - AWS & Red Hat	2020 – 2022
<i>Cloud Operations, Developing & OpenStack Administrator</i>	
– Intensive training in managing AWS infrastructure and Red Hat OpenStack Platform (RHOSP).	
SKKNI Training	Oct. 2019
<i>Junior Network Administrator</i>	

CYBERSECURITY PROJECTS

TSA Cyber Champion 2024 / Compfest CTF 2023	2023 – 2024
<i>Lead Challenge Author (Pwn/Binary Exploitation)</i>	<i>Ministry of Communication & Informatics / UI</i>
– Designed and developed complex binary exploitation and pwn challenges for national-level CTF competitions.	
0byteCTF (2023 & 2024)	2023 – 2024
<i>Challenge Author</i>	<i>Zerobyte.id Community</i>
– Created cybersecurity challenges for the public audience in the pwn/binary exploitation category.	
Cyber Security Hackathon (U-Connect)	2022 – 2023
<i>Technical Judge & Platform Architect</i>	<i>InfraDigital Foundation</i>
– Spearheaded competition design, including registration platforms and rulebook development.	
LKS Cyber Security Bogor Regency	Apr 2023
<i>Challenge Author & Judge</i>	<i>Ministry of Education & Culture Indonesia</i>
– Created challenges in network forensics, binary exploitation, and web exploitation.	

ACHIEVEMENTS

Cyber Breaker Development	Aug. 2025
<i>National Finalist - Top 30 Individual (Digital Forensics & Binary Exploitation)</i>	
Gemastik XIII - Cyber Security Division	Nov. 2020
<i>National Finalist - Top 15 Team (Cryptography & Reverse Engineering)</i>	
National MikroTik Networking Olympiad	Oct. 2016
<i>National Finalist - Top 10 Team (Networking & Infrastructure)</i>
